

# KINGSTON

## At Last The Perfect Carburetor

Made after exhaustive scientific tests, with the idea of combining simplicity with efficiency.

The automobile industry in its earlier days was hampered greatly by ineffective carburetion.

The KINGSTON has kept stride with the progress of the automobile and is recognized as the foremost carburetor today.

NO SPRINGS.

NOTHING COMPLICATED.

Once adjusted to your motor, leave it alone.

The FIVE BRONZE BALLS do all the work. Let us tell you how they work and explain the scientific principle by the KINGSTON.
